PROFESSIONAL SUMMARY

Customer-focused IT Help Desk professional with 2+ years of experience delivering Tier 1 and Tier 2 technical support in a fast-paced enterprise environment. Proven ability to diagnose and resolve hardware, software, and network connectivity issues while maintaining high levels of end-user satisfaction. Skilled in Active Directory user management, remote desktop support, and SLA-driven ticketing systems. CompTIA A+ candidate committed to continuous learning and delivering reliable, efficient IT support.

TECHNICAL SKILLS

Help Desk & Ticketing: ServiceNow, Jira Service Management, Zendesk, Remedy (ITSM)
Operating Systems: Windows 10/11, Windows Server 2016/2019, macOS (basic), Linux CLI (basic)
Hardware & Peripherals: Desktop/laptop imaging, printer configuration, monitor/docking setup, peripheral troubleshooting
Networking: TCP/IP, DNS, DHCP, VPN, Wi-Fi troubleshooting, basic switch/router configuration
Identity & Access: Active Directory (user provisioning, GPO, password resets), Microsoft 365, Azure AD (basic)
Remote Support Tools: Remote Desktop Protocol (RDP), TeamViewer, LogMeIn, Microsoft Teams
Productivity & Collaboration: Microsoft 365 (Word, Excel, Outlook, Teams, SharePoint), Google Workspace
Certifications: CompTIA A+ — In Progress (Expected: [Month Year])

PROFESSIONAL EXPERIENCE

IT Help Desk Specialist | Mid-Sized Company | *2022 – Present*

- Served as first point of contact for 200+ end users, providing Tier 1 and Tier 2 technical support via phone, email, and in-person for hardware, software, and network connectivity issues.
- Managed and resolved 30+ help desk tickets per week within defined SLAs, consistently achieving a 95%+ first-call resolution rate and maintaining high end-user satisfaction scores.
- Administered user accounts in Active Directory, including account provisioning, de-provisioning, password resets, group policy assignments, and access control reviews in alignment with least-privilege principles.
- Diagnosed and resolved Windows 10/11 OS issues including system crashes, driver conflicts, application errors, and performance degradation, reducing average resolution time by identifying recurring root causes.
- Deployed and reimaged 50+ workstations using standardized imaging procedures, ensuring consistent configuration baselines and reducing setup time across new-hire onboarding cycles.
- Configured and supported Microsoft 365 applications (Outlook, Teams, SharePoint, OneDrive) for end users, including mailbox migrations, calendar sharing, and license management.
- Troubleshot network connectivity issues including VPN failures, Wi-Fi drops, and DNS/DHCP conflicts, escalating complex cases to the network team with thorough documentation.
- Documented all support interactions, troubleshooting steps, and resolutions in the ticketing system (ServiceNow), contributing to a growing internal knowledge base of common fixes and workarounds.
- Supported printer, peripheral, and AV equipment setup across multiple office locations, minimizing downtime for meetings and day-to-day business operations.

EDUCATION

Bachelor of Science in Information Technology

University Name | Graduation Year

CERTIFICATIONS & TRAINING

- CompTIA A+ — In Progress (Expected: [Month Year])
- Microsoft 365 Fundamentals (MS-900) — Self-Study

- ITIL Foundation — Familiar with ITIL service management principles (incident, problem, and change management)

KEY ACHIEVEMENTS

- Reduced average ticket resolution time by identifying and documenting the top 10 recurring issues, enabling faster diagnosis across the help desk team.
- Onboarded 30+ new employees in a single quarter by streamlining workstation imaging and account setup procedures, ensuring day-one productivity for all new hires.
- Recognized by management for consistently high end-user satisfaction feedback, maintaining a top rating among help desk peers over two consecutive review cycles.
